

CORPORATE COMPANY PROFILE

PACKAGING THAT WORKS.

A full-spectrum, eco-friendly packaging partner for restaurants, chains and boutique eateries. From the first sketch to the final shipment, handled under one roof.

— AT A GLANCE

ProPac Solution designs, prints and produces eco-friendly food packaging in-house, then ships it nationwide. This profile covers who we are, how we work, the standards we hold and the full product range with sizes.

— WHO WE ARE

TWO DECADES OF PACKAGING, MADE TO WORK.

We are a one-stop, eco-friendly packaging partner. What began in 2004 as a small paper-converting workshop is now a full production house: design and pre-press, in-house printing, converting and fulfilment, all under one roof.

That single-roof model is the point. It keeps quality consistent, lead times short and your brand looking exactly the way it should, on every cup, box and bag that leaves the floor.

TWO DECADES IN THE MAKING

20⁺

Years converting paper into packaging that brands are proud to put their name on.

A steady progression from a single converting line to a certified, full-service packaging house.

2004 / 2026

2004

The first run

Founded as a small paper-converting workshop serving local eateries.

2009

Custom print

Brought printing in-house so brands could finally own their packaging.

2014

ISO certified

Achieved ISO 9001 and 14001, formalising quality and environmental systems.

2019

Going green

Shifted the catalogue to PLA and food-grade compostable materials.

2022

FSSC 22000

Food-safety certified end to end, approved for direct food contact.

2026

500+ SKUs

A nationwide one-stop partner with 24-hour lead times available.

FROM BRIEF TO DELIVERY

A clear six-step framework takes every order from first contact to confirmed delivery, with a sign-off at each stage.

01

DAY 1

Contact & Requirements

We capture your brief, volumes and brand goals to build a clear scope before we begin.

02

DAY 2 TO 3

Design & Logo

Our team mocks up full artwork on your chosen product with colour, print and branding detail.

03

DAY 3 TO 4

Approval & Payment

You sign off on the artwork and confirm the order with a secure payment milestone.

04

DAY 5 TO 7

Factory Proofing

A physical sample is produced at the factory and validated against every specification.

05

DAY 8 TO 20

Production & Shipment

Full run manufactured, quality-checked across every unit, and dispatched on schedule.

06

DAY 21+

Confirm Receipt

You receive, inspect and confirm delivery. Your next reorder starts with one message.

STANDARDS WE HOLD OURSELVES TO

Quality is not a claim, it is an audited system. Our production is independently accredited across food safety, quality, environment and approved-supplier programmes.

BRCGS FOOD SAFETY

BRCGS PACKAGING MATERIALS

YUM! APPROVED SUPPLIER

ISO 9001

ISO 14001

FSSC 22000

MATERIALS THAT RETURN TO NATURE.

Since 2019 the catalogue has shifted to compostable and recyclable materials. We choose fibres and linings that protect food on the way out and break down cleanly afterwards.

PLA-lined paper

Plant-based lining that replaces conventional plastic on cups and cold containers.

Kraft & recycled board

Unbleached and recycled fibres for bags, boxes and sleeves with a natural finish.

Bagasse

Moulded sugarcane-fibre trays and plates that are sturdy, grease-resistant and compostable.

Bamboo & birch

Renewable cutlery, stirrers and skewers that compost back into the soil.

100%

Recyclable, compostable
